February 25, 2018

1 Introduction

People's being unaware that accidents are also caused by carelessness while on roads is causing more accidents than ever, yet this can be solved if at all people change their attitude and seriousness while on roads.

1.1 Problem Statement

Carelessness while on roads is causing more road accidents.

1.2 Objectives

To create and increase awareness in people.

To reduce road accidents.

To give advice to people.

1.2.1 Aim

To reduce road traffic accidents by making people aware of what is happening/ has happened on roads.

1.3 Research Scope

This study is carried around Kampala concerning road traffic accidents simple causes.

2 Methodology

Different data from people such as audios, images and others will be collected to bring forward some instances where people fall victims of accidents due to carelessness while on roads.

This data will let people understand that simple things they do at the wrong time, "while on roads", have made others victims and so they should watch out not to suffer the same.
